CSPC: +035154

DESCRIPTION:

Chateau de Caraguilhes is the largest grower of certified organically-grown grapes in the Corbières region. Its vineyards have been committed to full organic farming since 1987, and since 1992, the accreditation body ECOCERT has ensured that all the grapes used in the making of Caraguilhes wines are certified as organic. These organic wines do not use pesticides, herbicides or chemical fertilizers, and incorporate only environmentally friendly methods and resources, such as natural pest and weed control, to grow the grapes

TASTING NOTES:

This wine, full-bodied, taut and crisp, has its own personality, impossible to find elsewhere. The concept of L'Echappée Belle is the desire to go off the beaten track, to concentrate on the intrinsic qualities of Carignan, matured in-bottle, in a 100% organic way.
