DESCRIPTION:

Hooper's is a range of traditionally British alcoholic brews that takes its name from William Hooper, who spent the early 19th Century travelling the globe to find innovative ideas that he could bring back to British drinkers. He was inspired to create a new range of refreshing alcoholic beverages and Hooper's was born. Today's bottle design is inspired by the hoops used in barrel making which gave rise to his now famous surname. Hooper's Dandelion & Burdock, Ginger Brew, Cloudy Lemonade, Strawberry & Elderflower and Raspberry & Nettle have been created using natural flavours with no artificial colours and are designed to be served over ice.

TASTING NOTES:

A sparkling ginger alcoholic brew infused with spices. Carrying hints of lemon and lime. Hooper's ginger brew delivers immediate tones of cinnamon, before fading to a soft ginger finish.
