DESCRIPTION:

Lemoncello is one of the most typical Mediterranean Liqueurs. It is made from the infusion of the peel of carefully selected lemons grown without the aid of chemicals in the gardens of the Gargano and the island of Ischia, where the sun and sea enhance the fruits fragrance. It should be served from the freezer in chilled glasses. It is also an excellent refreshing drink, mixed with tonic.

TASTING NOTES:

“Light yellow colour with clean sweet lemon aromas and flavours. Rich and flavourful, leading to a refreshing, tart and lemon zesty finish.”
